ABOUT THE UNIVERSITY

Introduction and Establishment Kutaisi International University was established in 2020, making it one of Georgia's newest public higher education institutions. As the first public university in Georgia funded by the Cartu Foundation, it represents a significant development in the country's educational infrastructure. Despite its recent establishment, the university has rapidly positioned itself as a preferred destination for international students seeking to study MBBS in Georgia, alongside programs in management, mathematics, computer science, finance, and engineering disciplines. Vision and Mission The university maintains a clear strategic goal: to become an international centre for education, science, and technology. This focus drives its...
