ABOUT THE UNIVERSITY

Historical Foundation and Evolution Omsk State Medical University traces its origins to 1920, when it was established as the Medical Faculty in the city of Omsk, located in the eastern region of Russia. The institution underwent several transformations over the decades: it became the West Siberian State Medical Institute in 1921, adopted the name Omsk State Medical Institute in 1925, and was designated as Omsk State Medical Academy in 1994. In 2015, the academy achieved university status and received IVth level recognition, cementing its position as a leading medical institution in the Siberian region. With over a century of academic excellence, Omsk State Medical University has trained more than 30,000 medical professionals since its...
